incompetence and blowback theories:
a mix of truth and lies

BEST EVIDENCE OF 9/11 COMPLICITY

media focus on demolition theories
and “no plane” hoaxes, not best evidence

official story	coincidence theory	blowback theory	PROVEN BEYOND REASONABLE DOUBT		maybe, maybe not but not provable	the controlled demolition of 9/11 half-truth DISINFORMATION DISCREDITS	
<p>The official story claims 9/11 was a surprise attack and a massive surveillance bureaucracy is needed to prevent a repeat. This lie was the pretext for creating Dept. of Homeland Security.</p>	<p>The media, both political parties and even many liberals claim incompetence enabled 9/11. Government operations are not perfect but incompetence cannot explain blocking efforts to prevent the attacks nor the coverup afterwards.</p>	<p>Most Bush critics argue 9/11 was “blowback” – revenge for US policies in the Middle East. While there are many motivated to retaliate for US policies, suppression of warnings just before 9/11 were not coordinated by Muslims.</p>	<p>9/11 allowed to happen</p> <ul style="list-style-type: none"> at least 15 US allies gave specific warnings FBI headquarters blocked field agents investigating flight schools before 9/11 CIA “Alec Station” did not tell FBI that they knew some hijackers had entered US NSA recording hijackers’ calls from USA to Yemen should have stopped 9/11 DIA Defense Intel. Agency “Able Danger” tracked hijackers for years fighter plane interceptors moved out of area before 9/11 	<p>during attack</p> <ul style="list-style-type: none"> Air Force / NORAD war game exercises confused air defenses CIA’s “plane into building” exercise evacuated National Reconnaissance Office (NRO) headquarters near Dulles Airport. fake blips on radars confused interceptors Secret Service kept Bush at photo op, did not protect President. NSA warning system did not warn White House military office 	<p>remote control of the four Boeings: the “hijacking the hijackers” theory. It is possible, but not provable, that Boeing’s “auto-land” uninterruptable autopilot was used. The first plane, Flight 11, flew over Indian Point nuclear power station. Allowing 9/11 to happen risked letting the hijackers fly into the nuke if the plane wasn’t remotely controlled. Flight 77 was flown into the strengthened, mostly empty Pentagon sector, not Rumsfeld’s office or National Military Command Center.</p>	<p>It is good the twin towers stood as long as they did after the collisions, which allowed most people below the impacts to escape. Firefighters watched the twin towers and WTC 7 bulging and leaning before they fell down. WTC 7 had a 20 story hole gouged by part of a tower falling onto it. “Thermite” in dust samples was likely burnt aluminum from the WTC’s cladding.</p>	<ul style="list-style-type: none"> no plane hit the Pentagon: a hoax created by Donald Rumsfeld on October 12, 2001 no planes hit WTC less popular than Pentagon “no plane” “no phone calls” hoax alienates most 9/11 families from working with 9/11 truth movement using neo-Nazi Holocaust denying white supremacist “American Free Press” as credible source
